

## VOLUME 2

### Appendices

#### TABLE OF CONTENTS

|                                                                                                                                                                | <i>Page</i> |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| APPENDIX 1 (REV.WRC-12) Classification of emissions and necessary bandwidths .....                                                                             | 3           |
| APPENDIX 2 (REV.WRC-03) Table of transmitter frequency tolerances.....                                                                                         | 9           |
| APPENDIX 3 (REV.WRC-12) Maximum permitted power levels for unwanted emissions in the spurious domain.....                                                      | 17          |
| ANNEX 1 Determination of the boundary between the out-of-band and spurious domains.....                                                                        | 23          |
| APPENDIX 4 (REV.WRC-15) Consolidated list and tables of characteristics for use in the application of the procedures of Chapter III.....                       | 27          |
| ANNEX 1 Characteristics of stations in the terrestrial services .....                                                                                          | 27          |
| ANNEX 2 Characteristics of satellite networks, earth stations or radio astronomy stations .....                                                                | 63          |
| APPENDIX 5 (REV.WRC-15) Identification of administrations with which coordination is to be effected or agreement sought under the provisions of Article 9..... | 107         |
| ANNEX 1 .....                                                                                                                                                  | 125         |
| APPENDIX 7 (REV.WRC-15) Methods for the determination of the coordination area around an earth station in frequency bands between 100 MHz and 105 GHz.....     | 135         |
| ANNEX 1 Determination of the required distance for propagation mode (1).....                                                                                   | 163         |
| ANNEX 2 Determination of the required distance for propagation mode (2).....                                                                                   | 174         |
| ANNEX 3 Antenna gain towards the horizon for an earth station operating with a geostationary space station .....                                               | 184         |

|             | <i>Page</i>                                                                                                                                                                                                    |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ANNEX 4     | Antenna gain toward the horizon for an earth station operating with non-geostationary space stations ..... 189                                                                                                 |
| ANNEX 5     | Determination of the coordination area for a transmitting earth station with respect to receiving earth stations operating with geostationary space stations in bidirectionally allocated frequency bands. 194 |
| ANNEX 6     | Supplementary and auxiliary contours ..... 199                                                                                                                                                                 |
| ANNEX 7     | System parameters and predetermined coordination distances for determination of the coordination area around an earth station..... 211                                                                         |
| APPENDIX 8  | (REV.WRC-15) Method of calculation for determining if coordination is required between geostationary-satellite networks sharing the same frequency bands..... 229                                              |
| ANNEX 1     | Calculation of the topocentric angular separation between two geostationary satellites ..... 236                                                                                                               |
| ANNEX 2     | Calculation of the free-space transmission loss..... 237                                                                                                                                                       |
| ANNEX 3     | Radiation patterns for earth station antennas to be used when they are not published..... 238                                                                                                                  |
| ANNEX 4     | Example of an application of Appendix 8 ..... 239                                                                                                                                                              |
| APPENDIX 9  | Report of an irregularity or infringement..... 243                                                                                                                                                             |
| APPENDIX 10 | (REV.WRC-07) Report of harmful interference ..... 247                                                                                                                                                          |
| APPENDIX 11 | (REV.WRC-03) System specifications for double-sideband (DSB), single-sideband (SSB) and digitally modulated emissions in the HF broadcasting service ..... 249                                                 |
| APPENDIX 12 | Special rules applicable to radiobeacons..... 255                                                                                                                                                              |
| APPENDIX 14 | (REV.WRC-07) Phonetic alphabet and figure code ..... 257                                                                                                                                                       |
| APPENDIX 15 | (REV.WRC-15) Frequencies for distress and safety communications for the Global Maritime Distress and Safety System (GMDSS) ..... 259                                                                           |

|             | <i>Page</i>                                                                                                                                                                                                                                                                                               |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| APPENDIX 16 | (REV.WRC-07) Documents with which stations on board ships and aircraft shall be provided..... 263                                                                                                                                                                                                         |
| APPENDIX 17 | (REV.WRC-15) Frequencies and channelling arrangements in the high-frequency bands for the maritime mobile service..... 265                                                                                                                                                                                |
| ANNEX 1     | Frequencies and channelling arrangements in the high-frequency bands for the maritime mobile service, in force until 31 December 2016..... 266                                                                                                                                                            |
| ANNEX 2     | Frequency and channelling arrangements in the high-frequency bands for the maritime mobile service, which enter into force on 1 January 2017..... 295                                                                                                                                                     |
| APPENDIX 18 | (REV.WRC-15) Table of transmitting frequencies in the VHF maritime mobile band..... 325                                                                                                                                                                                                                   |
| APPENDIX 25 | (REV.WRC-03) Provisions and associated frequency allotment Plan for coast radiotelephone stations operating in the exclusive maritime mobile bands between 4 000 kHz and 27 500 kHz..... 331                                                                                                              |
| APPENDIX 26 | (REV.WRC-15) Provisions and associated Frequency Allotment Plan for the aeronautical mobile (OR) service in the bands allocated exclusively to that service between 3 025 kHz and 18 030 kHz..... 367                                                                                                     |
| APPENDIX 27 | (REV.WRC-12) Frequency allotment Plan for the aeronautical mobile (R) service and related information..... 393                                                                                                                                                                                            |
| APPENDIX 30 | (REV.WRC-15) Provisions for all services and associated Plans and List for the broadcasting-satellite service in the frequency bands 11.7-12.2 GHz (in Region 3), 11.7-12.5 GHz (in Region 1) and 12.2-12.7 GHz (in Region 2)..... 469                                                                    |
| ANNEX 1     | Limits for determining whether a service of an administration is affected by a proposed modification to the Region 2 Plan or by a proposed new or modified assignment in the Regions 1 and 3 List or when it is necessary under this Appendix to seek the agreement of any other administration ..... 557 |
| ANNEX 2     | Basic characteristics to be furnished in notices relating to space stations in the broadcasting-satellite service ..... 562                                                                                                                                                                               |

|              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |     |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| ANNEX 3      | Method for determining the limiting interfering power flux-density at the edge of a broadcasting-satellite service area in the frequency bands 11.7-12.2 GHz (in Region 3), 11.7-12.5 GHz (in Region 1) and 12.2-12.7 GHz (in Region 2), and for calculating the power flux-density produced in these bands by a terrestrial station, or by a transmitting earth station in the fixed-satellite service in the band 12.5-12.7 GHz.....                                                                                                                                                      | 562 |
| ANNEX 4      | Need for coordination of a transmitting space station in the fixed-satellite service or in the broadcasting-satellite service where this service is not subject to a Plan: in Region 2 (11.7-12.2 GHz) with respect to the Plan, the List or proposed new or modified assignments in the List for Regions 1 and 3; in Region 1 (12.5-12.7 GHz) and in Region 3 (12.2-12.7 GHz) with respect to the Plan or proposed modifications to the Plan in Region 2; in Region 3 (12.2-12.5 GHz) with respect to the Plan, List or proposed new or modified assignments in the List for Region 1..... | 572 |
| ANNEX 5      | Technical data used in establishing the provisions and associated Plans and the Regions 1 and 3 List, which should be used for their application.....                                                                                                                                                                                                                                                                                                                                                                                                                                       | 574 |
| ANNEX 6      | Criteria for sharing between services .....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 610 |
| ANNEX 7      | Orbital position limitations .....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 616 |
| APPENDIX 30A | (REV.WRC-15) Provisions and associated Plans and List for feeder links for the broadcasting-satellite service (11.7-12.5 GHz in Region 1, 12.2-12.7 GHz in Region 2 and 11.7-12.2 GHz in Region 3) in the frequency bands 14.5-14.8 GHz and 17.3-18.1 GHz in Regions 1 and 3, and 17.3-17.8 GHz in Region 2.....                                                                                                                                                                                                                                                                            | 619 |
| ANNEX 1      | Limits for determining whether a service of an administration is considered to be affected by a proposed modification to the Region 2 feeder-link Plan or by a proposed new or modified assignment in the Regions 1 and 3 feeder-link List or when it is necessary under this Appendix to seek the agreement of any other administration.....                                                                                                                                                                                                                                               | 711 |

|                       | <i>Page</i>                                                                                                                                                                                   |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ANNEX 2               | Basic characteristics to be furnished in notices relating to feeder-link stations in the fixed-satellite service operating in the frequency bands 14.5-14.8 GHz and 17.3-18.1 GHz.....        |
|                       | 714                                                                                                                                                                                           |
| ANNEX 3               | Technical data used in establishing the provisions and associated Plans and Regions 1 and 3 feeder-link List, which should be used for their application.....                                 |
|                       | 714                                                                                                                                                                                           |
| ANNEX 4               | Criteria for sharing between services .....                                                                                                                                                   |
